Our Company

TSEKOURAS SECURITY was founded in 1989 and is based in a privatelly owned, purpose built building in Agios Stefanos, in the north of Attica district. Accumulating expertise from the US, the company specializes in the installation of security, access control, CCTV, and fire detection systems, as well as security services for both commercial and private properties.

To protect people, homes, businesses and properties of significant value to our clients, we design, install, and offer maintainance services for security systems, alongwith patrol, immediate response, and guarding services. All incoming information from connected systems and clients is collected and evaluated at our privatelly owned, in-house Signal Reception Center to facilitate instant evaluation and/ or intervention when needed.

Services

What we offer

To protect people and buildings of particular value to our clients, we provide top-level services with state-of-the-art hardware.

01

Signal Reception Center

Our Signal Reception Center is equipped with a state-of-the-art server with a static IP and specialized signal management software. Beyond the modern technology, the most important aspect is that the Alarm Signal Reception Center of Tsekouras Security is privatelly owned, and is equiped with 12 dedicated static IP lines and 12 landlines, ensuring immediate and effective response to any incident.

02

Signal Reception Center via GPRS

Signal Reception Center via GPRS Connection. This connection enables us to establish a secured two-way communication between systems over the internet, ensuring control throughout all 7 ultra-modern platforms available for the smoth operation of your alarm system 24/7.

03

Image Reception Center

We have developed a top-of-the-line, privately owned Image Reception Center operating advanced software and equipped with state-of-the-art hardware for the highest possible level of security for our clients.

04

Image Signal Reception Center

Through the Digital Communicator embedded in the central control unit of your systems, the system installed in your premisses, is automatically connected with our signal reception and processing center. This enables the reception and processing of valuable incoming data within seconds, such as system arming, disarming, identification of breach zones, communication control, and more.

ΤΣΕΚΟΥΡΑΣ SECURITY

Services

Data Collection & Evaluation – Personnel Monitoring

All incoming information from connected systems and our clients is collected and evaluated at our proprietary Signal Reception Center to enable immediate intervention if necessary. Our security personnel monitoring is conducted via a GPS tracker system in patrol vehicles, providing real-time location updates to the company's operations center and allowing immediate data dispatch ensuring the integrity of client contracts.

05

Immediate Response

This service releases a patrol vehicle as soon as an alarm signal is received, operating daily, 24 hours a day, year-round.

06

Patrols

The patrol service offered by Tsekouras Security aims to prevent potential malicious actions against safety and property. Our specially equipped patrol units inspect the guarded area one or more times within the agreed schedule.

07

Static Guarding

Static guarding offers maximum security for your premisses, when implemented by trained guards responsible to protect, control access, monitor the security system, provide assistance, and respond immediatelly in case of emergency or danger.

08

Neighborhood Watch

At Tsekouras Security, we have developed a specialization in "Patrols – Neighborhood Watch," covering many areas in Attica. Neighborhood watch involves safeguarding homes located relatively close to each other.

The Vice President & CEO, Nikolaos Tsekouras, and the Tsekouras Security team thanks you for your trust and support over the past 35 years, from our start in 1989 in the northern suburbs of Attica till today and beyond. The support of the local community is essential for a family business like ours to stand and thrive. From the founder and the 120 families working at Tsekouras Security, we express our gratitude and promise to continue improving the quality of all our services offered to you.

Thank you for your trust!
